

Pseudo-Code : counting down to 0 using while loops

OUTPUT “Please give an integer to start the counting down: “

myNum <- USERINPUT

while myNum >= 0:

 myNum = myNum - 1

OUTPUT myNum

What improvement can you make?

OUTPUT “Please give an integer to start the counting down: “

```
myNum <- USERINPUT
```

```
while myNum >= 0:
```

```
    myNum = myNum - 1
```

```
    OUTPUT myNum
```
