

# Python data structure - list

**To print out the items from a list**

```
myList = ['tic', 'tac', 'toe']
```

```
myList[0]
```

```
for item in myList:  
    print(item)
```

**OR**

```
for i in range(len(myList)):  
    print(myList[i])
```

# Python data structure - list

**To find out how many items in a list, use the len function**

```
myList = ['tic', 'tac', 'toe']  
len(myList)
```
